

Citrus Crush (S783)

Powder pre-spray boosted with natural citrus solvent.

FOR PROFESSIONAL USE ONLY

Citrus-boosted powder pre-spray CRUSHES oily soils!

APPLICATION: Prespray

DESCRIPTION: Powder prespray boosted with natural citrus solvent.

The perfect blend of cleaning agents and d-limonene absolutely CRUSHES oily soils! Tests have shown that Citrus Crush easily outperforms the competition. Developed to tackle the most heavily soiled oil-loving carpets, including polypropylene (olefin).

FEATURES:

- Highly alkaline product, cuts tough grease and grime easily
- Boosted with natural citrus solvent, pleasant scent
- Dissolves fast and easy
- Optimized surfactants and cleaning agents

WHERE TO USE: Pre-conditioning of traffic lanes and heavily soiled commercial nylon and olefin carpet before hot water extraction cleaning.

Not recommended for wool or carpet where the stain resistance warranty is to be preserved.

USE DILUTION:

Pump Sprayer: 2 scoops per gallon

Power Injection Sprayer (1:8 model): 6 scoops per 5 qt.

USE INSTRUCTIONS:

Pre-test carpet for colorfastness in an inconspicuous location. Not recommended for stain-resistant carpet.

Mixing:

PUMP SPRAYER: Mix 2 scoops per gallon of hot water. Mix until completely dissolved.

INJECTION SPRAYER (high pressure 1:8 tip): Mix 6 scoops per 5 qt. of hot water. Mix or shake thoroughly until completely dissolved.

Vacuum carpet to remove loose surface soil. Pre-spray carpet. Allow 10 minutes dwell time. Do not allow to dry. Agitate with carpet rake on stains and traffic lanes. Extract carpet with Dry Slurry, Liquid Slurry or All Fiber Deep Clean, following label directions.

COVERAGE: Makes approximately 30 ready-to-use gallons. One ready-to-use gallon cleans approximately 400 square feet. Coverage will vary depending on soil level and thickness and absorbency of carpet.

USAGE TIPS: High-pH pre-spray for commercial, non-stain-resistant carpet. Dilute powder with hot water. For extremely soiled areas, allow extra dwell time and agitate if needed.
